

## Teufel introduces the Concept B 200 USB;

**The first compact 2.0 HiFi speaker system for the PC - offering incredible sound without the sky-high price**

**Berlin, Germany 1<sup>st</sup> October 2009:** Teufel, Europe's leading direct seller of loudspeaker systems, is pleased to announce the launch of the Concept B 200 USB, the first compact stereo speaker system to offer incredible sonic performance over a USB connection without a sky-high price tag.

The Concept B's elegant, slim-line cabinets house two-way loudspeakers, providing stunning Teufel sound quality. To ensure the speakers are as compact as possible, the 120W amplifier is located externally, housed in a sleek, metal enclosure that tucks easily out of the way. Inside, four 30W power amplifiers individually supply optimum power to the high and mid-low range driver inside each speaker.

The speakers' size means they'll fit in and look good anywhere, whether placed either side of a monitor or used with a laptop or netbook. With the latter, Concept B offers a significant upgrade over your laptop's speakers – it's been designed from the ground up to provide balanced, natural sound at close range. And because sound is transferred over USB, you're no longer reliant on your computer's often-inadequate internal sound card.

The USB connection offers a number of further benefits – for unparalleled connectivity the amplifier also includes a USB hub, ensuring ports are easily accessible for connecting printers, scanners or a USB record player. Including two analogue inputs with a separate microphone input and headphone output, you're assured a perfect listening experience in glorious, detail-laden sound.

The Concept B 200 USB is available from October 2009; please visit [www.teufel.eu](http://www.teufel.eu)

## **About Teufel**

Teufel is Europe's leading direct seller of loudspeaker systems. The company was founded in Berlin in 1979 and quickly became a high-flyer amongst German specialist loudspeaker manufacturers. Over the years, Teufel has developed and manufactured a large number of high-quality audio products.

In addition to home cinema loudspeakers, Teufel's portfolio also includes multimedia and PC systems as well as various products for iPods under the iTeufel name. In 1996, Teufel was the first German company to launch loudspeakers with a THX licence – an extremely exacting standard for the playback quality of home cinema systems. Today, Teufel offers the largest range of THX loudspeakers in the world. Teufel products are available exclusively via direct sales – guaranteeing you high quality at a fair price.
