

Teufel introduces the Omniton 202;

A universal loudspeaker offering stunning HiFi quality, whatever the situation

Berlin, Germany 30th September 2009: Teufel, Europe's leading direct seller of loudspeaker systems, is pleased to announce the launch of the Omniton 202 – a universal loudspeaker designed to provide hi-fi quality sound in a multitude of scenarios.

The Merriam-Webster dictionary defines the combining form '*omni*' as meaning *all, everywhere, universal* – and that's exactly how the Omniton 202 gets its name. Whatever the situation, the Omniton 202 is up to the task, providing powerful, full-range sound with all the detail and sonic quality you'd expect from a Teufel product.

It may be compact, but it's ready for action anywhere and practically indestructible. Whether deployed at a club, bar, garden, swimming pool, gym, office or simply your sitting room at home, the Omniton 202's robust, water-resistant housing can tolerate shock, moisture and, well, anything else you can throw at it. It'll go wherever you need it, too - hard rubber sealing ensures it'll sit happily on a stand, shelf or table, while the rear is designed to ensure easy, adjustable mounting on a wall.

But while it may have the uncompromising brawn of a universal soldier, it's brainy, too – the speaker's 25mm cloth dome tweeter and 130mm woofer, constructed in bass reflex housing, enable it to reproduce the entire sound spectrum with incredible accuracy and without distortion up to an eyeball-shaking 102dB. Bass frequencies are represented so completely that a subwoofer is simply not necessary.

The Omniton 202 is your optimum solution for wherever you need your sound to be.

About Teufel

Teufel is Europe's leading direct seller of loudspeaker systems. The company was founded in Berlin in 1979 and quickly became a high-flyer amongst German specialist loudspeaker manufacturers. Over the years, Teufel has developed and manufactured a large number of high-quality audio products.

In addition to home cinema loudspeakers, Teufel's portfolio also includes multimedia and PC systems as well as various products for iPods under the iTeufel name. In 1996, Teufel was the first German company to launch loudspeakers with a THX licence – an extremely exacting standard for the playback quality of home cinema systems. Today, Teufel offers the largest range of THX loudspeakers in the world. Teufel products are available exclusively via direct sales – guaranteeing you high quality at a fair price.
