

Speaker stand M 950 P

Instructions for assembly

Parts list:

- 1 base
- 2 columns
- 1 metal plate
- 4 x M4 x 30 screws
- 4 x M4 x 10 screws

1. Guide the speaker cable through the one column with the cable output opening above its rear cable output opening and the base.
2. Screw the base to both metal columns using the screws (M4 x 30) and both washers.
3. Screw the narrow metal plate to the speaker intake using the appropriate screws (M4 x 10) on both columns.
4. Attach the speaker directly to the narrow metal plate over the centre hole. The M6 fastening screw for the speaker box is screwed into the base of the speaker and should be loosened in advance.
